

Experiment in progress

Want to make Pepper follow you?

If you wish to engage with Pepper and participate in this experiment, please refer to the following instructions:

To engage with Pepper:

1. Stand between 1.5 to 3 metres away from the robot
2. Make sure you're in its field of view
3. Say "follow me" out loud
4. Once the robot is following you, you can stay still, or slowly walk around

To disengage with Pepper:

- Say "stop" out loud
- Or
- Run away so it can't see you anything

Please fill out our survey:

Please don't make the robot move too far away from its original location (>10 metres) and return it to its original location when you're finished
