

Experiment in progress

Want to make Pepper follow you?

If you wish to engage with Pepper and participate in this experiment, please refer to the following instructions:

To engage with Pepper:

1. Stand between 1.5 to 3 metres away from the robot
2. Make sure you're in its field of view
3. Raise your hand up high for a few seconds
4. Once the robot is following you, you can stay still, or slowly walk around

To disengage with Pepper:

- Allow robot to reach you (~0.5 metres away)
- Or
- Run away so it can't see you anymore

Please fill out our survey:

Please don't make the robot move too far away from its original location (>10 metres) and return it to its original location when you're finished
